Mr. William J. Casey  
Director  
Central Intelligence Agency  
Washington, D.C. 20505

8 MAY 1986

Dear Director Casey

I am one of a small group of engineers and technicians who are contemplating forming a small corporation to supply engineering and support services for decision-making systems. One of our hopes is to become a supplier of expert services to CIA.

Can you explain how a start-up firm like ours would become qualified to contract with CIA? We are most puzzled by the regulations regarding facility and personnel security clearances. Since our interest is in engineering asset allocation and in certain cryptologic applications, it is reasonable to expect that our people and facilities would need to be inspected and cleared.

Thank you ~~for~~ for your time.
